Chapita Wells Unit #17

Now Holling

The above well was spudded on September 17, 1961. A 12-1/h" hole was drilled to 198' and surface casing consisting of 6 joints of 9-5/8" 32.30# H-hO casing was set at 198' and cemented to surface with 110 sacks regular cement with 2% HA-5. After W. O. C. 23 hrs., the casing was tested to 700 psi for 30 min. and the plug drilled. An 8-3/h" hole was drilled below surface casing using gas. The hole was reduced to 7-7/8" at 295h' and mudded up at 450h and drilled to 6302.

The following drill stem tests were run during the course of drilling:

Induction and Gamma Ray-Sonic Logs were run at 6302' and the well deepened to 6312'. Production casing consisting of 200 jts. of 4-1/2" 11.6# J-55 ST&C casing was run to 6306' and cemented with 500 sacks regular cement with 3/4# Halad-9 per sack. Plug was down on October 22, 1961. Correlation and Temperature logs were run, with the cement top at 4150' and TD 6253'. The rig was released on October 23, 1961.

A completion unit was moved in on December 11, 1961. Mud was displaced with salt water and an 1/2" abrasajet notch out at 6201°. Tubing was tripped and landed at 6167°. The wall was fraced with 1 HT-400 and 1 Twin T-10. Formation broke at 3800 psi. Used total of 15,000% 20-40 sand, 400% 12-20 walnut hulls, 400% WAC-8, 18,930 gal. water with 20% salt/bbl. including flush of 3600 gal. Max. Treating Pressure 4750 psi, Min. 3650 psi, Final 4500 psi. Instant shut in 1200 psi, 12 min. 1000 psi, Average Injection Rate 22.5 bpm.

Well History Chapita Wells Unit #17 Page 2

Well flowed back 40 bbls. water then died. Tubing was lowered to 6225' and a small amount of sand circulated out. Tubing was landed at 6208' and the well swabbed in. The well tested 375 MCF and increasing, with some frac fluid still coming back.

The completion unit was released on December 18, 1961.

Oil and Gas Leases

Merger Recognized Name Change Recognized

Acceptable evidence has been received in this office concerning the merger of EOG Resources, Inc. with and into Enron Oil & Gas Company with Enron Oil & Gas Company subsequently changing its name to EOG Resources, Inc.

For our purposes, the merger and name change are recognized effective September 3, 1999, the date the Secretary of State of the State of Delaware recognized the merger and name change.

The oil and gas lease files identified on the enclosed exhibit have been noted as to the merger/name change. The exhibit is the list supplied by EOG Resources, Inc. We have not adjudicated the case files to determine if the entity affected by the merger/name change holds an interest in the leases identified, nor have we attempted to identify leases where the entity is the operator on the ground maintaining no vested record title or operating rights interest. We are notifying the Minerals Management Service and all applicable BLM offices of the merger/name change by a copy of this notice. If additional documentation for a change of operator is required by our Field Offices, you will be contacted by them.

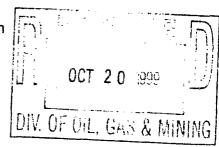

Due to the name change, the name of the principal/obligor on the bond is required to be changed from Enron Oil & Gas Company to EOG Resources, Inc. on Nationwide Surety Bond No. JP 0923 (BLM Bond No. NM 2308). You may accomplish this name change either by consent of the surety on the original bond or by a rider to the original bond. Otherwise, a replacement bond with the new name may be furnished to the New Mexico State Office of the Bureau of Land Management.

RE:

Merger and Name Change from Enron Oil & Gas Company

Into EOG Resources, Inc.

Dear Ms. Risbeck:

On August 30, 1999, EOG Resources, Inc. merged with and into Enron Oil & Gas Company and Enron Oil & Gas Company changed its name to EOG Resources, Inc. An originally certified copy of the Certificate of Ownership and Merger evidencing this merger and name change was previously sent to you. As we discussed today, there are two wells, the CWU 590-16F, NWNW-16-T9S-R22E, 430473337200 and the CWU 596-9F, SWSE-9-T9S-R22E, 430473337400 that should have been included on the original well list we mailed October 6, 1999, but they were inadvertently left off.

Please change your records to reflect these two additional wells as operated by EOG Resources, Inc. If you have any questions or need any additional information, please contact me at the (713) 651-6714.

Sincerely, Deliberthanne
